# ABOUT US

Bonyan has established before the war started in Syria by group of volunteers and university students. Their aim was to provide services to vulnerable communities in Aleppo.

After 2012, the group continued the relief activities to support affected communities and displaced people in Aleppo and its countryside.

In 2014, the team moved to Turkey joining the international and national effort to build a humanitarian response supporting people in needs in Syria. Bonyan has been registered as a Humanitarian organization in Turkey in July-2014.

## After registration Bonyan has developed its scope of work and defined itself as:
